Advanta's professional support and services organization is based on our belief that customer loyalty can be achieved through superior service. We ensure our customers continuous success through our team of experts, who with their vast experience in the IT field provide a backbone of support and reliance to rapidly built integrated e-business.

Company Policies

1. **Our attitude is** centered on a single word, '**simplify**'. We believe in an approach that simplifies your life, by delivering solutions that easily manage your day to day business goals.
2. We are committed to provide excellent products and support to our clients.
3. We are committed to create value for our clients by continually improving our quality through innovation.
4. We are committed for customer delight through on time delivery of quality product and services.
5. Our customers are our most important resource and asset. Please let us know if you encounter any type of queries or suggestions.

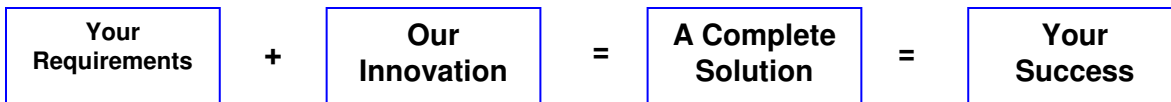

1. Who We Are?

We are developers of **Advanta-Witty, very much popular accounting software**. We are a software development company, providing the very best in computer technology by developing products and services that are user friendly along with being powerful and reliable.

2. What We Do?

We provide excellent software for Business Accounting, and special software for all types of businesses. Also, we create desktop/internet based software solutions/websites according to the customer's requirements.

3. How We Do It?

We plan and design the software by viewing the requirement from client's side. This approach creates a better understanding of the concept, based on which we apply our engineering techniques, technical knowledge and vast experience to provide the best solution. This ensures complete satisfaction and easy success of our client, which is our ultimate goal.

4. How We Are Better Than Others?

Passion for achieving software engineering excellence sets us ahead than others. Our desire is to be the fastest and the best in what we do. We believe long term relations with our clients. We constantly review and update our technologies and processes, to provide the best to our clients.
